Quartz’s goal is to help members be healthy while managing the quality and cost of their care. To do this, Quartz works with a large network of providers who are committed to providing quality health care. This Provider Directory will give you the information you need to –

- Choose a Primary Care Physician (PCP)
- Understand the basics of managed care
- Access specialty care
- Become familiar with your health insurance benefits
- Be a wise health care consumer
- Learn how Quartz Customer Service can assist you with your benefit questions

In addition, we understand that medical terminology can be confusing. That’s why we’ve included a detailed Glossary of Medical Terms to explain some of the medical terminology and abbreviations used throughout this Provider Directory.

**Important Information**

- The availability of practitioners and providers listed in this directory changes periodically. For the most up-to-date list of practitioners and providers, please visit ChooseQuartz.com/findadoctor and choose State / Local UW Health as your network. If you have questions regarding the status of a practitioner or provider, send a message to Quartz Customer Service through the message center within MyChart at QuartzMyChart.com, chat with us at ChooseQuartz.com or call (844) 644-3455.

- Practitioners and providers are independent contractors and not employees of Quartz. Please contact individual clinics for specific clinic hours.

Please contact Quartz Customer Service for printed information about hospital affiliations, medical group affiliations, board certifications, hospital accreditation, gender of each practitioner, languages spoken by, as well as an explanation for each of these items, its source, any limitations and how often this information is validated.

▶ **STILL HAVE A QUESTION?**

Please send a message to Quartz Customer Service through the message center within MyChart at QuartzMyChart.com, chat online at ChooseQuartz.com or call (844) 644-3455.
Quartz - UW Health Provider Network

Go to ChooseQuartz.com/findadoctor for a complete listing of physicians, clinics and hospitals in the Quartz - UW Health Network. Select Find a Doctor for State / Local Employees. Select the State / Local UW Health Network link.

Call Quartz Customer Service at (844) 644-3455 with questions.

2018 Quartz - UW Health Network Primary Care Locations

Does not include Cambridge and Mazomanie. See Quartz - Community Network directory for providers in these communities.
Primary Care Physicians (PCPs)

All Quartz members must select or be assigned a PCP at the time they enroll. Each member of your family may have a different PCP from your selected network. There are seven types of physicians that can serve as PCPs for Quartz members –

- Family Practice Physician (FP)
- Family Practice with Obstetrics Physician (FP / OB)
- General Practice Physician (GP)
- Geriatric Physician (Ger)
- Internal Medicine Physician (IM)
- Pediatrician (Ped)
- OB / GYN Physician (OB / GYN)

Each PCP listed in this directory has an abbreviation behind his / her name indicating his / her PCP type. These abbreviations will assist you in selecting PCPs that best meet the individual needs of your family members. Refer to the glossary at the end of this Provider Directory for more information on each PCP type.

You'll also find practitioners listed in the PCP section of this Provider Directory who have other abbreviations behind their name (PA, PA-C, etc). While you may not select these practitioners as your PCP, they are available for physical exams, urgent visits and follow-up of ongoing health care. Keep in mind that you may be able to see a Physician Assistant (PA) instead of waiting for an appointment with your PCP.

Why Choose a Primary Care Physician (PCP)?

A PCP is a physician who works with you to manage your health care. A PCP helps ensure you receive continuous, quality care in an efficient, cost effective manner. Your PCP coordinates your medical care through Quartz’s network of specialty practitioners. To effectively manage your care and help you reach an optimal level of health, it’s beneficial for you to have a strong relationship with your PCP.

To help you receive the best care, your PCP should –

- Know your medical history and coordinate all of your health care needs, including working with medical / surgical specialists and behavioral health (mental health / alcohol and other drug abuse) practitioners.
- Monitor and coordinate your care if you have a chronic medical condition such as asthma or diabetes.
- Recommend that you seek regular preventive health services, such as immunizations, age-appropriate physical exams and screenings.

In order to choose a PCP that best meets your needs, you should consider the following –

- Location of PCPs – What location(s) best meets the needs of your family?
- Specialists – Which specialists can you access through the PCP you select?
- Hospital affiliations – Which hospitals can you access based on your PCP selection?
Steps to Follow to Select a PCP

Follow these steps to select a PCP and determine which specialists you can access –

**Step 1** – If you are currently seeing a PCP, check this Provider Directory to determine if your PCP is a participating physician in the Quartz - UW Health Network. If the physician is listed in this Provider Directory, verify that he / she is the type of physician that can serve as a PCP. If you currently see specialty practitioners, you should also verify that they are also listed in the directory.

**Step 2** – If you are looking for a PCP at a UW Health Clinic write “Welcome Center” where you put your PCP choice. You may also contact the UW Health Welcome Center at (800) 552-4255 Monday through Friday from 8 a.m. to 5 p.m. or you can send an email to patientresources@uwmf.wisc.edu.

As a new Quartz - UW Health member and a new UW Health patient the UW Health Welcome Center will –
- Help you select a new PCP
- Work with you to transfer your medical records from your previous health system
- Gather your medical history
- Discuss any chronic and / or preventive issues or needs you may have
- Help you schedule any appointments if there is an immediate need

Each member of your family can have a PCP at a different clinic within the network you select. If you do not list either a PCP or a PCP clinic, Quartz will assign a PCP to you.

You must seek specialty care from specialty providers listed in this Provider Directory or at ChooseQuartz.com/findadoctor.

**Step 3** – Be sure to thoroughly read the first page of the PCP section in this Provider Directory. It provides information about the providers available to you.

If you have questions regarding participating providers or your health benefits, send a message to Quartz Customer Service through the message center within MyChart at QuartzMyChart.com, chat online at ChooseQuartz.com or call (844) 644-3455.

(See page viii for emergency and urgent care information.)

Tips for Selecting a PCP

It is important to choose your PCP with care. PCPs are trained to serve as your main doctor over the long term. They provide your medical care and help you stay healthy.

**Look for a PCP who –**
- Is highly recommended by your friends, family or co-workers
- Has the training and background that meet your needs
- Takes steps to help you prevent illness – for example, helps you identify ways to stop smoking
- Has admitting privileges at the hospital of your choice
- Encourages you to ask questions
- Listens to you
- Explains things clearly so you can understand
- Treats you with respect

Changing Your PCP

Quartz provides convenient ways to change your PCP –

1. Go to QuartzMyChart.com and log in to MyChart.
   Go to Coverage and select Primary Care Provider. Click the Search for Providers button and type in the name of your new PCP,
   or
2. Contact Quartz Customer Service at (844) 644-3455.

If you have a UW Health Clinic PCP, you can change your PCP at your clinic. Quartz and UW Health share the same database for member and patient information so you only need to notify one of us of your change. The database is automatically updated so both of us are informed at once.

For the most up-to-date list of practitioners and providers, visit ChooseQuartz.com/findadoctor.
What is Managed Care?
Managed care is designed to help keep members healthy. Managed care empowers members to seek preventive health care services and to work with their PCP to make the appropriate health care choices.
Managed care consumers have rights and responsibilities to assure they receive quality care and services. This includes the right to choose a PCP, the right to privacy and confidentiality and the responsibility for providing accurate information (see inside back cover for more information). In addition, Quartz expects you as a member to be responsible for –
1. Using your Quartz PCP to coordinate your care
2. Contacting Quartz Customer Service any time you have questions about your Quartz benefits

What Are the Benefits of Managed Care?
Quartz’s managed care plans promote the following –

**Coordination of care** – Your relationship with your PCP is an important one. He / she should help coordinate your health care services.

**Convenient access** – In the Quartz - UW Health network participating provider clinics are located to provide you and your family with accessible health care services in Dane County, except for the communities of Cambridge and Mazomanie (providers in these communities may be found in the Quartz - Community Provider Network).

**Streamlined administration** – There is very little, if any, follow-up paperwork when you seek care from a Quartz - UW Health network participating provider. Just show your member ID card at the time of service, pay any copayment, coinsurance or deductible (if applicable) and in most instances, your practitioner will submit claims and prior authorizations on your behalf.

**Care management** – Quartz’s doctors, nurses and other health professionals work with your PCP to review your care and help ensure you receive medically necessary and appropriate services.

**Preventive health care** – Quartz promotes preventive health care services such as age-appropriate physical exams, well-child care, routine Pap tests, mammograms and many others to help keep you and your family healthy. There are specific recommendations for adults, children and pregnant women. For a copy of the recommendations Quartz has adopted, visit QuartzBenefits.com/preventive or send a message to Quartz Customer Service through the message center within MyChart at QuartzMyChart.com, chat with us online at ChooseQuartz.com or call (844) 644-3455.
**Quartz's Member Promise**

Providing excellent customer service is one of our goals at Quartz. Every employee is dedicated to ensuring that our members have a high level of satisfaction with their Quartz plan.

We strive to –

- Provide prompt and accurate customer services
- Keep our promises and commitments to our customers
- Exceed our customers’ expectations in everything we do

**Quartz Customer Service**

We are committed to member satisfaction. Our Customer Service can assist you with any questions about your health benefits quickly. Quartz Customer Service can be reached by sending a message through the message center within MyChart at QuartzMyChart.com, our online chat feature at ChooseQuartz.com or by calling (844) 644-3455 or 711 / (800) 877-8973 (TDD / TTY only), during normal business hours. Outside of normal business hours, you may leave a voicemail message including your name, subscriber number, telephone number, where you can be reached and the best time (any time, day or night) for a Customer Service representative to return your call.

Quartz offers the ability to chat with a Customer Service representative using the internet during normal business hours. Chat makes it more convenient to receive real-time answers to your questions. To chat with us, go to ChooseQuartz.com and select the Click to Chat icon.
Your Quartz - UW Health Member Identification Card

Soon after enrolling, you will receive two Quartz identification (ID) cards. These cards identify you (the subscriber) and your covered dependents, your group number, a PCP for each family member (if applicable) and your selected provider network. Your selected network will appear as State/Local UW Health. If you or your family member has misplaced your Quartz ID card, you can request or print a new ID card through MyChart. Log in to QuartzMyChart.com and select Forms & Resources, then Request or Print ID Cards.

Quartz knows that privacy is very important to you, which is why your member ID number is a randomly assigned number.

PLEASE READ THE IMPORTANT REMINDERS ON YOUR ID CARD

There is important information on the front and back of your member ID card. Do not tear it in half – you will need the top and bottom portions to present at your clinic when you seek services. Always have your member ID card with you each time you access services from a participating health care provider or when calling Quartz Customer Service.

If you wish to change your PCP to another one in the Quartz - UW Health Network, notify Quartz. You will be issued new ID cards with the revised information on them. Any time you are issued new ID cards, please destroy the old ones. Any inquiries about member ID cards can be directed to Quartz Customer Service at (844) 644-3455 or TDD / TTY: 711 / (800) 877-8973.

SPECIAL NEEDS

Quartz is dedicated to assisting you in locating practitioners able to meet your special care needs. We encourage you to contact Quartz Customer Service at (844) 644-3455 regarding your special needs care. Your request will then be assessed by appropriate staff.

Quartz’s Customer Service team provides support in English or Spanish at (844) 644-3455. Quartz also provides interpreter services in other languages for our membership. To use this service, call (844) 644-3455 and Quartz Customer Service will connect you to interpreters who listen to the speaker, analyze the message and accurately convey its original meaning.
Urgent Care

Urgent care is care for an accident or illness that is needed sooner than a routine doctor’s visit. URGENT CARE IS NOT EMERGENCY CARE. It does not include care that can safely be postponed until you return to Quartz’s service area to receive such care from a Quartz - UW Health provider. Urgent health problems are usually marked by a rapid onset of persistent or unusual discomfort associated with an illness or injury. Examples of urgent care cases are most broken bones, sprains, non-severe bleeding, minor cuts, most drug reactions and minor burns. Urgent care centers are not emergency rooms or a replacement for your PCP’s office.

During regular office hours

Call your Primary Care Clinic and explain your symptoms, in addition to advising them that you feel you need to be seen immediately. If you are not sure whether your symptoms require urgent care, ask to speak with a nurse who can assess the problem. If it’s determined you have an urgent problem, you will be scheduled for an appointment within 24 hours or given other appropriate instruction.

After regular office hours

If you require urgent care after regular clinic hours or on weekends and holidays, call your Primary Care Clinic. (Quartz requires all participating PCP clinics to have 24-hour call coverage available for you). Leave your name and telephone number with the answering service and the on-call physician will return your call promptly. Please keep your telephone line clear to receive the call. Do this even when you are outside the service area or believe your clinic is closed. Your PCP clinic will tell you how to get appropriate care.

Follow-up care after you receive the initial treatment for the urgent or emergency condition is not considered urgent or emergent care. Your PCP must provide or arrange for your follow-up care and it must be provided by Quartz - UW Health Network providers.

Emergency Care Services

An emergency medical condition is one that manifests itself by acute symptoms of sufficient severity, including severe pain, to lead a prudent layperson who possesses an average knowledge of health and medicine to reasonably conclude that a lack of immediate medical attention will likely result in any of the following –

- Serious jeopardy to the participant’s health. With respect to a pregnant woman, it includes serious jeopardy to the unborn baby.
- Serious impairment to the participant’s bodily functions.
- Serious dysfunction of one or more of the participant’s body organs or parts.
Some examples of emergencies are –
- Acute allergic reactions
- Acute asthmatic attacks
- Convulsions
- Epileptic seizures
- Acute hemorrhage
- Acute appendicitis
- Coma
- Heart attack
- Attempted suicide
- Suffocation
- Stroke
- Drug overdose
- Loss of consciousness
- Any condition for which you are admitted to the hospital as an inpatient from the emergency room

In these instances, seek emergency care at the nearest emergency care facility.

Emergency services include reasonable accommodations for repair of durable medical equipment as medically necessary.

What to do in case of an emergency

1. Go to the nearest hospital or call 911.
2. Have someone show your Quartz - UW Health member ID card to the emergency room hospital staff.
3. Notify your PCP of your emergency care so he / she can help you coordinate any follow-up care.

If an ER physician refers you to a specialist for a follow-up visit, call your PCP before seeing the specialist. All follow-up care must be provided by Quartz - UW Health Network providers. Out-of-network referral requests require prior authorization from your PCP and approval by Quartz.

If you are uncertain whether the situation is a true emergency, call your Primary Care clinic or the nearest hospital Emergency Room.

Visit etf.wi.gov to understand out-of-pocket costs for emergency care.

Accessing Care Away from Home

It is important you understand how to obtain health care when you are away from home. We have separated this information into two categories – routine and specialty care versus urgent and emergency care.

Routine and specialty care

There is no coverage for routine and specialty care that is obtained at a facility other than a Quartz - UW Health Network provider. Routine services obtained at an out-of-network provider will not be paid. Routine, follow-up and specialty care should always be obtained when you arrive back home.

Urgent care outside the service area

Contact your PCP first. (Quartz requires all network PCPs to have 24-hour call coverage available for you.) Your PCP will tell you how to get appropriate care. Quartz will consider payment for out-of-network urgent care services if you experience a sudden and unexpected illness or injury, and all of the following are true –

- You urgently needed the care AND
- You could not have foreseen the need for care prior to leaving the service area AND
- You did not specifically leave the service area to obtain care AND
- You could not have delayed care until you were able to return to the service area.

Follow-up care after urgent or emergency services

Follow-up care is care you receive after the initial treatment of the urgent condition. Follow-up care is not urgent care. Your PCP will provide or arrange for your follow-up care. All follow-up care must be received from providers in the Quartz - UW Health Network. Out-of-network referrals require prior authorization from your PCP and approval by Quartz. Contact Quartz Customer Service at (844) 644-3455 if you have questions.

Emergency care outside the service area

See the previous section on emergency care services.

Dependents living away from home

Eligible dependents living outside of Quartz’s service area are covered for medical emergencies while they are away from home. If your child is a covered dependent living away from home, that child can obtain emergency or urgent care, as needed. Routine and follow-up care must be received from a Quartz – UW Health Network provider for covered benefits to be paid.

Your eligible child who is a full-time student can also receive a clinical assessment for outpatient mental health or alcohol and other drug abuse (AODA) treatment by an out-of-network provider that Quartz designates. If outpatient services are recommended and approved by Quartz, coverage will be provided for up to five visits outside of Quartz’s service area.

Reimbursement

Unless the medical care facility you use for out-of-network emergency or urgent care agrees to bill Quartz directly, obtain an itemized statement of services. Submit appropriate documentation with a completed member claim form, available at QuartzBenefits.com/memberforms.
Know Your Benefit Plan

Be sure to review your It’s Your Choice materials at etf.wi.gov. This contains a complete copy of your benefits.

Member Rights and Responsibilities

Quartz is committed to maintaining a mutually respectful relationship with our members and practitioners. We have a written policy that states our commitment to respecting your rights and communicates our expectations of your responsibilities including your right to privacy and confidentiality, your right to be treated with respect and dignity, and your responsibility to show consideration and respect to health plan staff and health care practitioners. Quartz’s Member Rights and Responsibilities can be found on the inside back cover of this Provider Directory.

Member Confidentiality and Privacy Policies

The following is a brief summary about how Quartz uses and protects member information. For additional information, see Quartz’s Notice of Privacy Practices at QuartzBenefits.com/privacy.

Quartz has policies and procedures designed to safeguard the confidentiality of personally identifiable member information.

These policies and procedures establish guidelines for the proper handling of records and information used to administer health plan benefits. When responding to a request for information, Quartz’s policy is to release only the information necessary to respond to the request.

The Quartz confidentiality and privacy policies protect member privacy and address the following topics –

- Routine use and disclosure of member health information
- Use of authorizations for non-routine disclosure of member health information
- Procedures used to monitor access to information
- Protection of information disclosed to external entities

You may access Quartz’s Notice of Privacy Practices online at QuartzBenefits.com/privacy. If you would prefer a printed copy, please call Quartz’s Privacy Official at (800) 362-3309, Ext. 1852 or email privacy.official@quartzbenefits.com.
Authorization for Release of Information

Quartz does not need authorization to obtain or disclose member information for treatment, payment or health care operations. For other purposes, Quartz will ask the member to sign an authorization form that gives permission to release the information. Authorization must be obtained when information is to be used for the following purposes –

- Release of information to a family member, power of attorney, employer or lawyer
- Release of information that could result in another company contacting you for marketing purposes
- Release of information for research (if the disclosure includes personally identifiable member information)

In instances where a member is unable to provide necessary authorization, Quartz may require a valid court order or other written proof of legal authority prior to releasing information.

Member access to medical records

Quartz does not maintain original medical records. Members may access their medical records by contacting their practitioner’s office or the provider of care (such as a hospital). Members must follow the practitioner’s or provider’s procedures for accessing medical information.

Member access to Quartz - UW Health records

Members may request access to their Quartz - UW Health records, such as claim and billing information. Quartz - UW Health requires members to complete a written request for access. Members can call Quartz Customer Service at (844) 644-3455 to request a copy of the written request form and learn more.

Disclosure of information to health plan administrators

Quartz provides certain types of information to health plan administrators as part of standard health insurance processes. Disclosure of information to health plan administrators is limited to information permitted by law to be shared.

Treatment setting

Practitioners and providers are expected to implement confidentiality policies and procedures that address the disclosure of medical information, patient access to medical information and the storage and protection of medical information. Quartz reviews practitioner confidentiality processes during pre-contractual site visits for primary care physicians and certain specialty care practitioners.

Quality improvement

Data for quality improvement measures are collected from claims, pharmacy and member medical records. Quartz protects confidential information by reviewing records in non-public areas and excluding member identifiable information from written reports.

Opting Out of Information Sharing or Gathering

You may have received notices from other organizations that allow you to “opt-out” of certain disclosures. The most common type of disclosure that applies to opt-outs is the disclosure of personal information to a nonaffiliated company so that company can market its products or services to you. As a health plan, we must follow many federal and state laws that prohibit us from making these types of disclosures. Because we do not make disclosures that apply to opt-outs, it is not necessary for you to complete an opt-out form or take any action to restrict such disclosures.
Complaint and Grievance Procedures

Quartz is dedicated to providing quality service to its members. To continuously improve care and service, Quartz looks to you for comments or suggestions. There may be a time when you have a complaint or concern regarding Quartz - UW Health benefits or service. As a member, you have the right to voice a complaint or appeal a decision made by Quartz and to receive a prompt and fair review.

If you have a complaint you would like addressed, please contact Quartz Customer Service at (844) 644-3455. Quartz’s Customer Service representatives are dedicated to resolving your complaint in a timely fashion. If Quartz Customer Service is unable to resolve your complaint, an appeals specialist will assist you.

Quartz’s grievance process includes a comprehensive review of your grievance by an appeals specialist and review by qualified medical personnel and the Reconsideration Committee when needed.

The Reconsideration Committee was established to assure you receive all the benefits your contract entitles you to as well as a fair and impartial hearing of your grievance. This committee also provides you the opportunity to share information concerning your grievance in person.

For certain types of claims, you are entitled to request an independent, external review of the Quartz decision. For details, please see your certificate of coverage. If your claim is not eligible for independent external review but you still disagree with a denial, your state insurance regulator may be able to help to resolve the dispute.

For questions about your rights or for assistance, you can contact –

Office of the Commissioner of Insurance
PO Box 7873
Madison WI 53707-7873
Fax: (608) 264-8115
Phone: (800) 236-8517 or (608) 266-0103
Email: ocicomplaints@wisconsin.gov

Or, contact the Employee Benefits Security Administration at (866) 444-3272.

For more information about your appeal rights, you can visit QuartzBenefits.com/appeals.

In addition, if your claim is not eligible for the independent, external review process previously mentioned, you have the right to request a review of your grievance by the Department of Employee Trust Funds (ETF). You may call or send a letter to ETF and request a complaint form (ET-2405). Contact –

Department of Employee Trust Funds
801 W. Badger Road
PO Box 7931
Madison, WI 53707-7931
(877) 533-5020 (toll-free)

Your written request should be sent to ETF within 60 days of the date of Quartz’s denial letter. Requests must contain all pertinent documentation, including our response to your grievance and a description of the contract provision(s) at issue. Your complaint will be referred for review and investigation to an ETF ombudsperson who attempts to resolve complaints and disputes on behalf of the participant. If you would like more information, you should contact ETF toll-free at (877) 533-5020 and ask to speak directly with the ombudsperson.

Quartz is dedicated to providing you quality health care services and quality customer service. Solutions can only be made when problems have been identified. We thank you in advance for your cooperation.
The Quartz - UW Health Provider Directory includes PCPs and specialists at UnityPoint Health-Meriter, UW Health clinics in Dane County, Access Community Health Centers, Associated Physicians and Madison Women’s Health clinics.

- No written referral requests are needed when you obtain care from specialty providers listed in this Provider Directory. However, you should work with your PCP to coordinate any specialty care you may need.

- Prior authorization may be needed for certain services. For a list of categories requiring prior authorization, go to QuartzBenefits.com/priorauth.

- For the most up-to-date list of practitioners and providers, please visit ChooseQuartz.com/findadoctor.

1 **PCPs**
   Does not include Cambridge and Mazomanie – see the Quartz - Community Network Provider Directory for practitioners and providers in these communities.

5 **Facilities**
   Includes hospitals, surgery centers, urgent care, AODA and inpatient behavioral health

7 **Specialists**

7 **Behavioral Health**
   Quartz offers assistance to members in need of behavioral health care (mental health care / alcohol and other drug abuse services). UW Health – Behavioral Health Care Management is a triage line staffed by experienced mental health clinicians. They will help you get an appointment in a timely manner and help determine the correct type of behavioral health practitioner that can best meet your needs. For assistance or to make an appointment, call UW Health – Behavioral Health Care Management at (608) 422-8380 or toll-free at (800) 683-2300.

12 **Chiropractic Services**
   You must use a chiropractor listed in this directory for covered services.

17 **Optometric Services**
   You must use a provider listed in this directory for covered services.

26 **Glossary of Medical Terms**
   Explains some of the medical terminology and abbreviations used throughout this Provider Directory.

The following provider listing was compiled as of August 2017. For the most up-to-date list of practitioners and providers, please visit ChooseQuartz.com/findadoctor.
Primary Care Physicians

NOTE: The availability of physicians listed in this directory changes periodically. For the most up-to-date list of practitioners and providers, please visit ChooseQuartz.com/findadoctor. Nurse Practitioners (NPs) and Physician Assistants (PAs) are licensed, highly qualified professional health care providers who work in partnership with Primary Care Physicians (PCPs). While you may not select a PA as a PCP, they are available for annual exams, urgent / problem visits and follow-up for ongoing health care. (*) PCPs noted with this symbol are only accepting Quartz members who are existing patients. (+) PCPs noted with this symbol may be close to having a full practice. Because they have limited availability, you may experience delays in scheduling appointments. You should call the clinic to see if he / she is accepting new patients at this time. (§) NPs, CNPs and CPNPs noted with this symbol may not be selected as a PCP. However, they are available for annual exams, urgent / problem visits and follow-up for ongoing health care. Please send a message to Quartz Customer Service through MyChart at QuartzMyChart.com, chat with us online at ChooseQuartz.com or call (844) 644-3455. Email and phone messages are monitored during normal business hours. Please contact the individual clinic for specific hours available for patient appointments.

NOTE: If your PCP determines that you need specialty care, your PCP will direct you to a specialist listed in this directory. If you are directed to use a specialist not listed in this directory, you must obtain a written referral and approval from Quartz. For Behavioral Health and alcohol and other drug abuse (AODA) services, please contact UW Health - Behavioral Health Care Management at (800) 683-2300. If you have questions or need assistance with the referral process, please send a message to Quartz Customer Service through MyChart at QuartzMyChart.com, chat with us online at ChooseQuartz.com or call (844) 644-3455. Email messages are monitored during normal business hours. For the most up-to-date list of practitioners and providers, visit ChooseQuartz.com/findadoctor and choose State / Local UW Health as your network.

Primary Care Physicians

NOTE: The availability of physicians listed in this directory changes periodically. For the most up-to-date list of practitioners and providers, please visit ChooseQuartz.com/findadoctor. Nurse Practitioners (NPs) and Physician Assistants (PAs) are licensed, highly qualified professional health care providers who work in partnership with Primary Care Physicians (PCPs). While you may not select a PA as a PCP, they are available for annual exams, urgent / problem visits and follow-up for ongoing health care. (*) PCPs noted with this symbol are only accepting Quartz members who are existing patients. (+) PCPs noted with this symbol may be close to having a full practice. Because they have limited availability, you may experience delays in scheduling appointments. You should call the clinic to see if he / she is accepting new patients at this time. (§) NPs, CNPs and CPNPs noted with this symbol may not be selected as a PCP. However, they are available for annual exams, urgent / problem visits and follow-up for ongoing health care. Please send a message to Quartz Customer Service through MyChart at QuartzMyChart.com, chat with us online at ChooseQuartz.com or call (844) 644-3455. Email and phone messages are monitored during normal business hours. Please contact the individual clinic for specific hours available for patient appointments.

The following list of providers are available in the Quartz – UW Health Provider Network for 2018. To access a complete, up-to-date listing of Quartz - UW Health providers, visit ChooseQuartz.com/findadoctor for physicians, clinics and hospitals in the Quartz - UW Health Network. You may also call Quartz Customer Service at (844) 644-3455, for help with finding a network provider near you.

### Specialty Physicians and Clinics

**NOTE:** If your PCP determines that you need specialty care, your PCP will direct you to a specialist listed in this directory. If you are directed to use a specialist not listed in this directory, you must obtain a written referral and approval from Quartz. For Behavioral Health and alcohol and other drug abuse (AODA) services, please contact UW Health - Behavioral Health Care Management at (800) 683-2300. If you have questions or need assistance with the referral process, please send a message to Quartz Customer Service through MyChart at QuartzMyChart.com, chat with us online at ChooseQuartz.com or call (844) 644-3455. Email messages are monitored during normal business hours. For the most up-to-date list of practitioners and providers, visit ChooseQuartz.com/findadoctor and choose State / Local UW Health as your network.

The following list of providers are available in the Quartz – UW Health Provider Network for 2018. To access a complete, up-to-date listing of Quartz - UW Health providers, visit ChooseQuartz.com/findadoctor for physicians, clinics and hospitals in the Quartz - UW Health Network. You may also call Quartz Customer Service at (844) 644-3455, for help with finding a network provider near you.

MEMBER RIGHTS AND RESPONSIBILITIES

Take a moment to review your Member Rights and Responsibilities so that you can continue to take an active role in managing your family’s health care –

Member Rights

- **To choose:** Members have the right to choose a Primary Care Physician (PCP) who participates in their plan’s provider network.

- **To obtain information:** Members have the right to receive information about their rights and responsibilities as a member of Quartz. Members have the right to make recommendations regarding Quartz’s Member Rights and Responsibilities Statement. Members have the right to obtain information about Quartz and information relating to covered and excluded health plan benefits. Members have the right to obtain information on available primary and specialty care practitioners and providers. Members have the right to receive preventive care information and information about their illnesses and treatment options. Members have the right to obtain information about how to file a complaint, appeal or grievance.

- **To have privacy and confidentiality:** Members have the right to privacy and confidentiality in communications and records about their care.

- **To participate in their care:** Members have the right to be active in decisions about their treatments. Members have the right to have a candid discussion of appropriate or medically necessary treatment options for their conditions, regardless of cost or benefit coverage. Members have the right to obtain information about the risks and benefits of treatment. Members also have the right to refuse care.

- **To present a complaint, appeal or grievance:** Members have the right to voice concerns and to receive a prompt and fair review of their concerns.

- **To be treated with respect and dignity:** Members have the right to be treated with respect and dignity regardless of their race, age, gender, sexual orientation or creed.

Member Responsibilities

- **To choose a personal physician:** Members have a responsibility to choose a personal physician from among the PCPs who participate in their plan’s provider network and to establish a relationship with that physician.

- **To know their benefits and requirements:** Members have a responsibility to understand their health plan benefits and limitations and to follow required procedures. Members also have a responsibility to know how to use their plan’s provider network and to ask questions about things they do not understand.

- **To provide accurate information:** Members have a responsibility to provide accurate and complete information about their health history, their eligibility, and their enrollment. Members have a responsibility to show their ID card each time they receive services and to pay any out-of-pocket expenses they incur.

- **To participate in their care:** Members have a responsibility to participate in their care by asking questions about their health. Members also have a responsibility to follow the recommended and agreed upon treatment plan for their illness and to make healthy lifestyle choices to maintain their health or manage their illness.

- **To keep their appointments:** Members have a responsibility to keep their appointments or to give early notice if they must cancel.

- **To show consideration and respect:** Members have a responsibility to show consideration and respect to health plan staff and health care providers.
The Quartz offering for the State of Wisconsin Group Health Insurance Program is underwritten by Unity Health Plans Insurance Corporation.
